

Fifty Representatives Attend East Michigan Winter Sports Council Meeting at Standish Last Wednesday

Public education in Michigan is critically in need of funds. The sales tax amendment would guarantee schools revenue for a reasonable program," states Dr. J. Phillips, executive secretary of the Michigan Education Association.

"The Board of Directors of the M.E.A., speaking for its 31,000 members, has unanimously endorsed proposed constitutional amendment No. 2 because it offers the only immediate source of sufficient funds to save schools from further curtailment," continued Dr. Phillips.

"Providing a good program of education for the million children enrolled in Michigan public schools should be the concern of every citizen. Schools suffered during the war period, and their plight has grown worse instead of better. Good teachers are not turning from other jobs, and new candidates are not entering the profession because teachers' salaries have not kept pace with increases in living costs."

"The housing situation is just as critical for children in many schools as it is in homes. Crowded rooms, classes in basements, and half-day sessions are cheating a large number of children out of a good education. These conditions, plus antiquated heating and ventilation systems, are endangering the health of the pupils."

"It is estimated that the sales tax amendment would guarantee at least \$90,000,000 of state aid to schools about \$90 for every child enrolled in public schools, during the next school year. That amount would go a long way toward meeting current needs for salaries, supplies, equipment, and more classrooms."

"A very conservative estimate places the immediate need for state school aid at not less than \$104,000,000 annually. This includes \$6,262,405 for the operation of schools, which includes salaries for the 50,000 teachers and non-teaching employees, supplies, equipment, and school maintenance. This amount would pay salaries comparable to the standard set up by the State Civil Service for teachers in state institutions of less than college level. It would increase wages of other public school employees to levels in keeping with present costs of living, and equal to wages paid workers in comparable fields."

"These amounts leave a balance of \$18,260,000 as a start toward school building programs. During the war period, from 1939 to 1944, the average annual expenditure for the 50,000 teachers and non-teaching employees was only \$5,140,000. This was a tremendous drop from the average annual expenditure of \$23,400,000 during the period from 1923 to 1929."

"If we allow \$18,260,000 as the additional amount needed for school buildings next year, we are anticipating no more than was spent annually during the more normal period of twenty years ago. A recent survey by the State Department of Public Instruction shows an immediate need for additional classrooms which at prevailing prices would cost at least \$92,701,000 to build."

"To summarize: Estimated state school-aid needs for the current school year for salaries for all public school employees and needed supplies and equipment. \$ 86,262,405 Average annual additional school building needs. \$ 92,701,000 Total. \$104,552,405"

"There is no need to fear that the amendment would prevent the state Legislature from continuing a formula of school distribution to equalize school opportunities throughout the state. The amendment would guarantee to public schools annually from the general fund of the state an amount equal to 42.6 percent of the sales tax revenue for the preceding fiscal year, in addition to one-sixth of the current sales tax receipts to be distributed as the Legislature shall decide."

"Under the present state school-aid formula, the Primary School Interest Fund (which is an allotment per census school child) is a deductible item from the gross allowance for each school district. The same plan of distribution could be applied to funds that the sales tax amendment would provide."

County to Receive Gas Tax Return

Vouchers for the return of \$2,000,000 in McNitt gas tax payments to the counties of the state for the second half of 1946 are provided for in Act 130 of the Public Acts of 1931 (the McNitt Act) have been sent to the Auditor General's office by the Highway Department, Highway Commissioner Charles M. Ziegler reports. The money is to compensate the counties for township roads for the additional expense they incurred when they took over maintenance of former township roads under the McNitt Act.

Crawford County is to receive \$20,036.11 as its share of the McNitt monies.

About fifty representatives of eleven eastern Michigan communities gathered at Standish last Wednesday to discuss the coming Winter Sports season at an East Michigan Winter Sports Council Meeting.

Grayling was represented by President Arthur Clough and the retiring promoter Kessler of the Chamber of Commerce, who handled last year's advertising and promotion of the season and carnival. Arthur Elmer, chief of the parks division of the Conservation Department, Robert Dodge, area parks supervisor and Dewey Zerkle, superintendent of the Grayling Winter Recreation Area

represented the park itself. Elmer told the group that there are plans for construction of new buildings and relocation of some ski runs. Both Elmer and Clough announced that the Grayling Chamber and Parks Division would again cooperate this year to operate the area in a carnival in much the same manner as last year.

Three travel bureaus have already contacted Grayling in regard to the operation of snow trains to the huge state-owned winter playground just west of the city, Clough told the group.

Richard H. Fletcher Jr. of Bay City was unanimously reelected president of the Council, Kenneth

Barnes, Tawas City returned to his secretary post while Frank Davis, E.M.S.A. secretary-manager was reelected Council treasurer. Alpena was selected as the site of the next meeting which was tentatively dated for October 30.

President Fletcher told the group that at the Alpena meeting an extensive budget for advertising and promotion of winter sports in eastern and central Michigan would be presented. He named to the advertising and budget committee Burrows Morley, Saginaw, and Glenn MacDonald and Hugh Giesel, of Bay City. The committee will develop a budget and advertising plan of about \$7,500 to

\$8,000, President Fletcher said. The Alpena meeting will be the final time for communities to select dates for their respective winter carnivals also, it was said. Chamber President Clough revealed that Grayling had already put in a tentative bid for the final weekend of January for the big event at the local winter sports area.

Several communities reported on work already underway and tentative projects at their respective snow playgrounds. Wynne J. Steunol, chairman of the West Branch delegation announced that bulldozers were already at work clearing new ski runs in that com-

munity's park. He said that they plan to utilize many of the scenic Ogema trails for sponsored cutter rides. Alpena is attempting to relocate their skating rink nearer their ski runs to lick a travel problem. Silver Valley Park at East Tawas is attempting to enlarge their ski trail pattern and will enlarge their skating rink also, W. D. Nunn, Silver Valley chairman said. The Bay County recreation commission plans, in addition to maintaining several skating rinks, the sponsorship of supervised sleighrides. A new safety factor for winter parks was announced by Burrows Morley. He said a chapter of the National Ski Patrol

is being organized at Saginaw to practice first aid measures at parks throughout this section of the state. Patrol members will be available for duty at parks throughout the season. The supplying of weather information to state newspapers and radio each Friday morning throughout the winter season was also voted by Council members. Among the communities represented at the Standish luncheon meeting were: West Branch, Silver Valley, Lewiston, Pinconning, Alpena, Standish, Bay City, Saginaw, Roscommon, Oscoda and Grayling.

SIXTY-NINTH YEAR NUMBER 40 GRAYLING, MICHIGAN, THURSDAY, OCTOBER 3, 1946 8 PAGES—Price 5c

Duck Supply Fair for Opening Day

A fair supply of local ducks, less abundant than in former years but sufficient to provide fair shooting until the migrant ducks arrive—

that is the consensus of 175 waterfowl observers reporting to the conservation department's game division from all parts of the state.

In the upper peninsula most observers report a normal hatch and normal conditions in the duck marshes, with hunting prospects little changed from those of recent years. In the southern waterfowl section the drought has changed the picture most radically. Many ponds, potholes, and swales in the interior are dry, so dry it is doubtful that fall rains will turn them into waterfowl territory before the end of the season November 15. Conditions in the northern half of the lower

peninsula are midway between those in the northern and southern counties, with water lacking in some areas, and normal numbers of ducks in others.

Since the drought came relative late in the season, the local duck hatch is believed to have been generally normal, though dryness forced some ducks to shift to larger rivers and lakes and to Great Lakes marshes. Great Lakes levels lower than in recent seasons have improved conditions in some lakeshore shooting spots for both ducks and hunters.

A considerably reduced supply of migrant ducks may be expected from the north this season, according to federal reports. While the federal Fish and Wildlife service anticipates "close to 2,000,000" sportmen will be in the field, gunning for this season's crop.

Final Rites Held Tuesday for Harriet Sherman

Final rites were read Tuesday, October 1 at 2:00 o'clock at the Michigan Memorial Church for Mrs. Harriet Sherman, Rev. R. C. Puffer officiated. Mrs. Harold Jarman and Mrs. C. G. Clippert presented the music. Interment was in Elmwood cemetery.

Yallied Dan Hoesli, Carl Parsons, Frank Serven, Duncan McColman and Bryan Newell served as pallbearers.

Mrs. Sherman was born Harriet McColman, the daughter of Mr. and Mrs. Neil McColman, September 24, 1886, on Manitoulin Island, Ontario, Canada. Here she lived until she was 13 years of age at which time she moved to Michigan. In May 1904 she became the bride of Jerry W. Sherman in Maple Forest Township. The couple resided there, moving to Grayling in 1912 where they have lived ever since.

Mrs. Sherman was a member of the Methodist Church. She was a loving mother and wife and had a cheerful and kind disposition. Surviving besides her husband is one daughter, Mrs. Helen Bugby of Grayling and one brother, Robert McColman of Manitoba, Canada, and two grandchildren, Jane Bugby and Mrs. Norman May. Two sons died at birth and a daughter, Lois passed away at 2 years of age. Mrs. Sherman had been in poor health for several years. The interment was at the cemetery.

Grange Holds Booster Night Last Saturday night was Booster Night for the Grange members. The meeting was well attended and a very fine program of songs and readings was given. An essay by Mrs. Helen Mathewson was also well accepted.

Mr. and Mrs. Richard Babbitt received the first prize for the largest farm collection and also took the prize for naming the flowers. In the boys game contest, Charles Keway won first and Jerry Barber second.

Mrs. Helen Clippert Named Area Chairman Announcement was made today by Mrs. Rae C. Hooker, Vice-Chairman of the Michigan Republican State Central Committee of the appointment of 29 Michigan women as regional field representatives for the women's division of the committee.

Appointed to represent Alcona, Oscoda, Kalkaska and Crawford Counties was Mrs. Helen Clippert of Grayling.

County Forests Soon In Full Fall Color

The forests of Crawford County are beginning to be tinged with yellow and russet and touches of purple and other hues as the frost gets in its work.

The scene from a hilltop this weekend was very colorful and it is expected that by another week-end if the weather continues crisp that the fall color should be at its peak. Many people take their vacation during this colorful season and the amateur photographers flock north for color pictures of unsurpassed beauty. They may wait a long way before finding scenes to equal Crawford County hills crested with trees appearing as though they were touched by a rainbow.

Public to Demand Better Tourist and Resort Facilities

Michigan has enjoyed its best tourist season in history. But C. A. Gunn, extension specialist in agricultural engineering at Michigan State college specializing in tourist and resort planning, believes some operators have a big job ahead of them.

"It is true that both the 'shack' and the 'castle' were rented this season and probably will be next season. But as soon as there is a greater choice of accommodations, the discriminating public will take its patronage to the neat, clean and courteously operated establishments," Gunn related.

He recently made a research tour of Michigan's tourist facilities. He found many modern, clean and efficiently operated establishments. Some operators, he feels, either fail to realize the importance of the business or would rather have today's dollar than several dollars in the future. He found that they failed to keep their facilities at an acceptable standard of maintenance. Materials are short, and agrees that the average tourist was willing to accept shortages of towels, linen and other scarce articles along with the same typical shortages at home. But thirty and unsanitary washrooms, cluttered-up grounds and other evidence of neglect is unnecessary.

He urges operators to obtain state department of health regulations and learn the minimum standards. But to guarantee complete satisfaction, Michigan operators must give more than "minimum standards," Gunn believes.

Although many desire private bath facilities, most tourists feel satisfied with a central toilet and shower building in the camp. The relative cost of a central water system is so low, that outside toilet facilities must be considered obsolete, Gunn believes.

Mrs. Roy Trudgen returned from the hotel convention in St. Joseph Monday and Mrs. Thomas Cassidy, who also attended, stopped off in Grand Rapids to spend a week with her daughter, Mrs. Victor Thalen.

Grayling Talk by Van Wagoner Hits Problems

Attacks Liquor. Conservation Depts. in Campaign Speech

Speaking before 50 people after dinner, J. Van Wagoner, Democratic Committee here last Thursday night, former Governor Murray D. Van Wagoner, Democratic candidate for the same office, hit the Liquor Control Commission and the Conservation Department for their lack of foresight in not cooperating to further the state's tourist business.

"The state's tourist business depends first upon a fine highway system which in turn is dependent upon maintenance crews. The best man in the state on that job introduced me tonight—Tony Nelson," said the Democratic standard bearer in referring to County Democratic Chairman A. J. Nelson.

Van Wagoner said he believed the Conservation Department was trying to do a good job and that they employed many good men, but lacked the foresight to carry out a full program to help the tourist industry. He then pointed out a plan which he had in the drafting stages when he was defeated for Governor. He added that his biggest regret in losing the election was his inability to see to it that Grayling plan for the tourist industry through to the end. He explained that plans called for snack spots to be erected down the Ausable River, the delivery of cars to canoeists at the end of their trip and the erection by the state of lodges for overnight vacationers.

HITS LIQUOR BODY

He slashed at the Liquor Control Commission for their unfriendly attitude towards the industry in not allowing more liquor and licenses to the resort areas. He said that the quotas set on small normal

Keep Serial Numbers Says Police Chief

Chief of Police George Bleiskit today warned the people of Grayling to keep a record of the serial numbers of new tires, electric devices and other expensive items that are hard to purchase on today's market.

"High prices offered for today's hard to get tools and items are causing a wave of petty burglaries," Chief Bleiskit said. If we can keep a record of serial numbers of the articles we have a 100 percent improved chance of recovering the stolen goods and the thief as well."

The State Police always demand serial numbers of stolen articles, the Grayling Police Chief explained, when the loss of goods are reported to them by local law enforcement men. To help the police do a better job of protecting the citizens' possessions, it is necessary that the citizens cooperate with the enforcement officials, he pointed out.

The theft of three electric drills from a local manufacturing plant in a recent breaking and entering brought the point of keeping numbers to light. If serial numbers of such expensive equipment, which is almost impossible to obtain today, could be furnished the investigating officers, the chances of the apprehension and conviction of the criminals is greatly aided.

Postal Employees Feted at Party by Postmaster

Thirty-two postal employees and former employees and their wives and husbands were guests at a party given by Postmaster and Mrs. James McConnell at their home last Saturday night.

The occasion was a celebration of the successful inauguration of city postal delivery and in appreciation of the efficiency and cooperation of all of the employees of the local post office, Postmaster McConnell said.

Edward Martin and Alfred Hanson were home from Michigan State to spend the weekend with their respective parents.

Wave Faces Charlevoix Juggernaut Here Tomorrow

Buccaneers Rack Up 71 Points in Two Contests

The Grayling Green-Wave faces the Charlevoix steamroller, which has piled up 71 points to their opponents none in two contests so far this season, at the local gridiron at 2:30 tomorrow afternoon. Coach Willard Cornell's charges will be without the services of their star guard and captain, Harry Miller, who received a severe kidney injury in the Roscommon game last week. Two other injuries suffered in the game, Dick Miller a head injury and Jim Douglas, a leg injury, should be able to see action Friday, Coach Cornell said. He also said he was indebted to Dr. R. A. Van-Vleck whose aid with the injured was very helpful.

Charlevoix tripped Mancelona last Saturday by a 19 to 0 score, however Mancy was playing without the services of their captain, halfback Puckett who received injuries in an auto accident near that city. Puckett is a triple threat back, doing most all of Mancelona's kicking, passing and running.

BIG TEAM The Buccaneers from Charlevoix will line up tackle to tackle with the Grayling line at about even weight. Their wingmen are much bigger than the Wave ends. Bob Carey, all-conference 6 foot, 4 inch basketball center is on one end of the line and is a deadly pass receiver, according to reports. The two backfields will be about even in size.

Avalanche Employee Killed in Action

A letter from Mrs. Luther Rice to O. P. Schumann this week revealed that Ivan L. Rice, an Avalanche employee from July, 1940 to March, 1942 had definitely been killed in air action over Germany on October 14, 1943.

He had been reported missing during the entire later part of the war, but, with the capture of Nazi records it was confirmed that he had been shot down over Forest Imphoffen, Germany and later found and interred in the village cemetery.

He was a co-pilot of a B-17 Flying Fortress and had participated in raids on France, Belgium and Germany. He was wounded in a raid on Kassel, Germany for which he was awarded the Purple Heart Medal. He was shot down on a return trip from a bombing raid on the ball-bearing plants at Schweinfurt. The Air Medal was presented his parents by Major Ralph Crossman and Lt. Frederick Parsons in March, 1944 along with a citation for exceptional achievement.

The men were acting on behalf of Col. J. K. Lacey, commanding officer of the 346th Bombardment Group.

A Memorial Chapel is being dedicated at the Methodist Church in Rice's hometown of Mancelona, Illinois in his memory and that of another young man of the community who gave his life for his country.

Local Legion Post Plans Dancing Party

The Grayling American Legion Post No. 106 is planning weekly dancing parties every Friday night starting this week at the Legion Club. Both modern and old time square dancing to music by the Rhythm King Trio is planned. The parties will be open only to Legion members and their guests, post spokesmen said. The parties will be a feature of the post club all winter, it is planned.

Hire Handicapped Week Begins Next Sunday

"Hire the Handicapped — It's Good Business," is the national slogan for the week of October 6-12, set aside by joint resolution of the 79th Congress and proclaimed by President Truman as "National Employ the Physically Handicapped week."

Why? Because today, a total of 225,000 disabled Veterans and 75,000 physically handicapped non-veterans are seeking jobs through 1800 U. S. Employment Service offices throughout the nation. Of that total, some 14,000 of whom 8900 are veterans are registered in Michigan's 75 branch U.S.E.S. offices, according to O. K. Fletland, State Director of the U.S.E.S.

Because an estimated two million living casualties of World War II are new listless Veterans Administration records, in and out of crowded hospitals. As they are discharged to civilian life, they want jobs for which, by the way, they can qualify.

Each year an estimated 130,000 workers are victims of industrial accidents. Added to these are more thousands injured in traffic, on farms and while engaged in recreation. Put down more thousands of disease and sickness victims who survive with impairments that affect their employability by forcing them to learn new skills, seek new fields of occupations. Today the nation's total of physically handicapped persons in 25,000,000 according to the American Federation of Physically Handicapped.

Cecil Howell, Local Office Manager states that in Michigan, as elsewhere, the public employment is prepared through ten years of experience to provide such help. This specialized program of service is known as Selective Placement Program.

Mr. Howell pointed out that the Local U.S.E.S. Office has placed 21 handicapped workers in the last 3 months, 16 of these were veterans of World War II. He further stated that currently there are in Crawford County 6 handicapped workers registered for employment, including 5 veterans. It is estimated that of this number 3 veterans and one non-veteran are currently able and available for work.

Mr. Howell urges employers to observe "National Employ the Physically Handicapped Week" by searching their job lists for openings which qualified handicapped workers can fill and to place their job orders with the United States Employment Service Office today.

Down Roscommon by 14-0 Score for Second Victory

Before the largest reported crowd ever to witness a Grayling game here, Phil Keway ran 78 yards in the first quarter around an end to score the first points against Roscommon and in the last quarter took a pass from Ed Carlson and ran the remaining distance of the 60 yards to score. Both points after touchdown were scored by Carlson in line buckets.

Playing against the heaviest backfield they will be called upon to face this year, the Grayling squad showed flashes of brilliant play, in both an offensive and defensive way, but were not consistent. Crawford stood out in the line and should be set to make the going tough over his position for the opponents that the Wave has yet to face this fall. Radical changes are in store on the forward wall this week, Cornell said, to cover up the loss of Harry Miller and to improve the line play.

Other scores in the Northern "C" League were: East Jordan 21, Gaylord 0; Harbor Springs 27, Pellston 0; Boyne City played at Petoskey in an out of conference contest.

GAME STATISTICS

Statistics of the Roscommon-Grayling game compiled by Eugene Lawler showed that the locals and Roscommon each made 8 first downs, Grayling gained 160 yards in rushing and lost 7 while Roscommon made 151 and lost 26. Grayling attempted 4 forward passes and completed one while Roscommon tried 7 and completed none. Grayling averaged 42 yards on their kicks, Roscommon 38 yards.

The starting Grayling lineup found Goss and R. Miller at ends, Hanna and Douglas at tackles, Grimstad and Captain H. Miller at guards and Crawford at center. In the backfield, C. Feldhauser started at quarter with Carlson and Smock at halves and Keway at full. Kraage was substituted at tackles, Lozon and J. Feldhauser at guards, Burns at center, Bleiskit and Fagendick at ends and Earl Rasmussen at quarterback.

Kiwanis to Meet at Conservation School

The Grayling Kiwanis Club will hold its next week's meeting at the Conservation Department's Training School at Higgins Lake on Tuesday evening beginning at 6:30, acting President Robert W. Strong said today.

The meeting at which the Kiwanis wives will attend also will begin with one of the school's famous chicken dinners. Following the dinner, the club has several skits of their own to place on the program before the group adjourns to view movies shown by the Training School head, Russell Martin.

Mr. Martin is to screen a National Fish and Wildlife full color movie entitled, "The Wild." Russ says that it is a full hour of some of the best shots of American big game that he has ever witnessed. About 40 Kiwanians, their wives and guests are expected to attend the dinner meeting.

ATTEND CONVENTION

Those from Grayling who are planning on attending the 45th Annual Convention of the Ladies National League which is being held at the Roosevelt Hotel in Pontiac Oct. 4 and 5 are the following: National President, Emma Knibbs; National Secretary, Bonnie Wakeley; National Auditors, Fern Feldhauser, Eureka Stephan and Edna Feldhauser. Elsie LaMotte, Delegate from Camp Wagner No. 10, Grayling, Alberta Wiggins and Mrs. Palmer, Camps from Detroit, Saginaw, Bay City and Flint also attend.

Dr. and Mrs. Bethard of Toledo spent the weekend at their cottage at McIntyre's Landing.

Second Week Brings Upsets in Pin Leagues

The second week of the men's division of the Grayling Bowling League brought out more than the average of upsets and queer scoring. Charley Long, bowling for Grayling Restaurant bowled a 255 which is but one pin less than the highest game rolled all during last year. He grabbed high three game series too with 587, but, his team lost all four points to the Crawford Avalanche who found themselves tied for second with Green's tavern and Hanson's Chevrolet.

Long also leads the average list with 178 followed by Al Carriere with 177, Al Cherven with 176, Carl Nass 173, Tony Nelson and Glen Day 172, Joe Cinciala and Ed Smith 170, Johnny Johnson 169 and Bob Higgins 168.

Second high three game series for the season is held by Bill LaChappelle with 563 as has Tony Nelson. Al Cherven has a 635, Marion Burch 549, Al Carriere 547 and Carl Nass and Herman Bertl 546. Tony Nelson's 214 is second high single game and Al Cherven and Herman Bertl each have a 209 for third slot. Bob Neafie's 205 clinches fourth for him while fifth place is split three ways with Johnny Johnson, Tony Nelson and Marion Burch all rolling 201.

Team standings after the second week's rolling are as follows:

Bertl's Moblitas	5	1	7
Green Tavern	4	2	6
Hanson's Chevrolet	4	2	6
Crawford Avalanche	4	2	6
Ron's Hardware	4	2	6
Spike's Keg O'Nails	3	3	4
Altes Lager	3	3	4
Tutt's Texaco	2	4	4
Oates' Photo	4	2	4
Jarmin's Insurance	3	3	3
Kaiser's Bar	2	4	3
Wade's Cabin Court	2	4	2
Grayling Restaurant	1	5	1
Little George's	1	5	1

WOMEN'S DIVISION
Porath's and Jarmin's teams stood at the top of the list at the end of the second week in the women's league rolling with six wins against no losses while Long's Market held second with a record of five wins and one loss. Hanson's and Olson's were tied with 3 wins and 3 losses. Doretts have won one while losing 5 to hold fourth place and Sorenson's and Dawson are at the bottom with six losses and no wins.

Phyllis Long's 175 was high single game (must run in the family). Amy Gothro rolled a 174 and Emma Burch had a 17 and a 167. In the individual high 3 game series Emma's 451 led the list with Amy Gothro with 437, Phyllis Long 414 and Margrethe Nielsen 410. Doretts hold team high single

game with 689 and Jarmin's high three game series with 2049. Burch leads the average list also with 150, Fern Akers has 145, Clara Sorenson and Iva Jarmin each 131.

Placing Calls In A Certain Way Speeds Up Service

One way the telephone-using public can be of help in the speeding up of long distance service is by placing calls in the manner suggested below.

This is a standard practice recommended by telephone companies all over the country, and is designed to assist operators in giving faster service.

First—Give the name of the place you are calling.

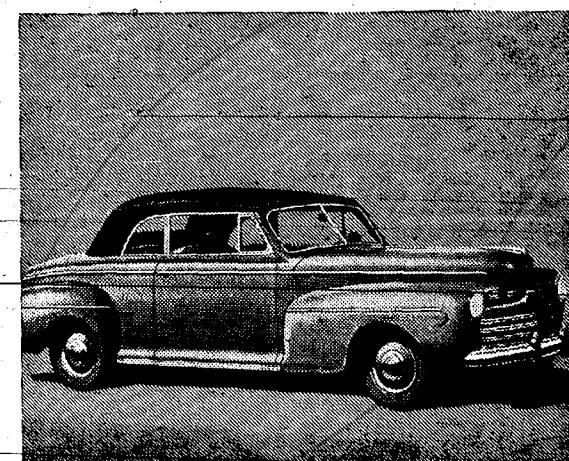

Second—The telephone number you are calling, if known. Otherwise—On Station calls—the name and address of the called telephone. (For Example: John Doe's residence—145 Main Street.) On Person calls give the name of the person you are calling and where they may be reached. (As: John Doe at Doe's Hardware.)

Third—Give your own number when the operator asks for it.

Keep these three steps in mind and help yourself to better service.

Grayling, Michigan, Thursday, October 3, 1946

Time Rolls Along --

On October 1, we finished our second full year at the helm of your hometown newspaper, the Avalanche or as it is sometimes known, The Snowslide.

Starting our third year, we can see nothing but a bright future. We have installed in our composing room a brand new Model 31 Linotype. This machine is capable of three times the capacity of operation as the older machine which was here when we took over. It is our hope to bring you now a better paper every week and a larger one every once in a while. We are getting set for bigger things.

The help of local people in giving us tips on news is appreciated from the bottoms of our hearts. Through you people, we feel the Avalanche carries more local news than any other paper of its size in this part of the state. Our sincere thanks also to our regular correspondents, Mrs. Arthur House, Mrs. Harry Horton, Mrs. J. T. Stillwagon and Mrs. Stanley Flower, who are doing a splendid job reporting the news events of their sections of the county. Also we wish to thank several others who report occasionally.

The Grayling merchants through their advertisements in the Avalanche have made a larger paper possible, our thanks to them also. We believe the increased readership of the paper makes their advertising in their hometown paper a paying proposition, however. At least that's what most of them have told us.

To steal a quotation from Johnny Peterson's laundry our hopes for the Avalanche is that we can be a good newspaper in a good town. Grayling is a good town but it could still stand some improving. If we can ever wade through these post-war shortages a good paint up and clean up week would do wonders for our community.

The one great void in this community, that is apparent to us after our two years of residence, is a lack of cooperation. We should and MUST learn to work together for the common good. Petty differences should be forgotten when we enter a campaign of any type for community betterment.

Grayling still is looked upon as Michigan's winter sports capitol, a great fishing, hunting and resort center and a good place to go to relax in the out of doors. We

have the best airport in the state for a city of our size. Cities many times our size are envious of our municipal light and power plant. The way candidates for the governorship have stopped in Grayling this year, leads you to believe that they think Grayling is a good town to have in their camp.

After completing our second year here, we still feel as we did a year ago, that Grayling is a good place to call home.—R.W.S.

A number of ladies pleasantly surprised Mrs. Elmer Matson at her home Thursday evening, the occasion being her birthday anniversary. The ladies played "500". Mrs. Ambrose received first prize and Mrs. Max Landsberg second. A two course lunch was served by the Misses Anna Peterson, Agnes Havens and Vera Matson. Mrs. Matson was presented with a cut glass dish.

Miss Eva Hendrickson, daughter of Mr. and Mrs. A. E. Hendrickson of this city has entered Mercy Hospital Training School for nurses.

About 25 friends of Mr. and Mrs. E. R. Clark of the South Side helped them celebrate their silver wedding Friday night of last week. Music, dancing and lunch were enjoyed. Out of town guests were Mr. and Mrs. Arnold Braker and Miss Cora Heath of Toledo.

George K. Kirkendall and family have moved from Madison Street on the South Side into the John Olson house on Maple Street.

Charles Damoth of Frederic is in Mercy Hospital having been injured by cutting a knee with an axe while working in the lumber camp.

Rev. J. H. Baughn, newly appointed pastor for Michelson Memorial Church and his family arrived Tuesday night and are now getting settled into the parsonage.

**State Deer Kill
Leads Continent**

Michigan led all states and Canadian provinces in the number of deer killed last hunting season, according to a survey published by Outdoor Life magazine. The survey showed that 269,977

hunters killed 97,221 deer in Michigan in 1945, an average of 36 deer per each 100 hunters.

However, hunters in Pennsylvania killed only 25,000 deer, an average of but 9 for each 100 hunters.

Pennsylvania was the only state having more hunters with 282,677.

**From where I sit... by Joe Marsh****Bert Childers
and the Melon Patch**

Bert Childers put an ad in the Clarion the other day. Here's what it said:

"Planted more melons than I can eat this year. Stop by and pick as many as you want. All free."

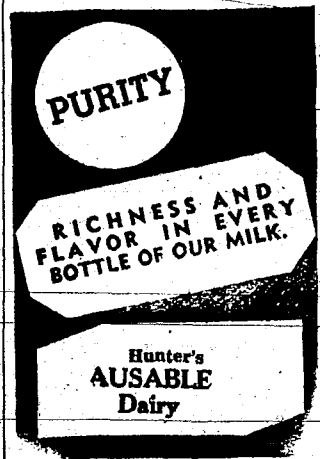

As you can guess, plenty of folks sent their kids over and plenty of the parents came too. Stripped Bert's melon patch in no time. And as they went away, Bert treated the kids to lemonade, and offered the grownups a glass of ice-cold sparkling beer.

Naturally it puzzled some folks... but Bert explains: "It gives me a kick to share things when I can afford to—whether it's the melons, or the lemonade, or beer. I guess I just like to indulge my whims."

From where I sit, if we had more "self-indulgent" people like Bert—who believe in share and share alike, live and let live, this third world would be a whole lot better off!

Bowmen Now Hunt Deer

Without either the snow or fall leaves that customarily mark deer hunting in Michigan, two of the state's four 1946 deer seasons began October 1st - for archers only.

The special Allegan county season for archers runs two and half months, from October 1 to December 15, assuring the bowmen some tracking snow before the season is over. Archers in Allegan also may kill deer of either sex, an opportunity they now have nowhere else in the state.

The regular archery season, Slush a Hazard.
Slush is a double hazard. A layer of melted slush on ice will "eat up" several inches of ice, and even at rock bottom temperatures slush refreezes slowly.

Millionth Bushel of Peaches Delivered to State Capitol

Again this year the officials at the Benton Harbor market purchased the millionth bushel of peaches sold over that market this season and delivered it to Lansing. This picture shows Honorable Harry F. Kelly, Governor of Michigan, receiving greetings from Stanley Lee, Market Master of the world's largest fruit market, Charles Ely, Director of the State Department of Agriculture, is observing the presentation.

The millionth bushel arrived at the market market a week earlier this year than in other years when a crop of similar size produced.

open in every county of the state even Wayne, if bowmen can find deer there, also begins October 1, but ends earlier, on November 5. Archers in all counties other than Allegan may kill only antlered bucks.

Last year 2,010 archers killed 68 deer, and more than 3,000 bowmen are expected in the woods this fall if the current rate of increase in the sport's popularity continues. The regular gun deer season, as usual, will be November 15-30 in the northern two-thirds of the state. Michigan's fourth deer season in the antlerless gun hunting in Allegan county December 1-10, limited to 300 hunters selected from a much larger number of applicants by lottery. No matter how many of the seasons any one person hunts in, he may not take more than one deer a year.

Van Wagoner

(Continued from Page One)

populations was far from adequate to take care of the out of state tourists. He stressed the need of closer cooperation between state departments to help the tourist industry instead of the now narrow viewpoint that most of them seem to take.

"It is time the liquor operator was treated like a legitimate business man because after all it is legitimate to sell liquor in this state," the former state chief executive exclaimed.

In approaching the veteran's problems, he pointed out that both himself and Thurman Doyle, candidate for Attorney General, were veterans of World War I while Osmond Kelly, candidate for Lieutenant-Governor was a veteran of World War II. Van Wagoner proposed a revolving state fund of 100 million dollars to build homes for veterans on a 10 percent down payment and easy installment with a low interest rate. He said he also favored a priority system for veterans on cars and essential home appliances to give him an even chance with the man who did not have to serve in the armed forces. He said the veterans were entitled to a bonus from the state and that he personally would vote in favor of the amendment. He also proposed a state employment agency operated by veterans to help other former servicemen to find their place in industry.

REDUCE VOTING AGE
"I also if elected will recommend to the legislature that the voting age be changed from 21 to 18 years of age. If these boys are old enough to defend their country, they are old enough to vote," the former highway commissioner and governor stated.

He discussed the labor and management situation and said that he believed he had the confidence of both sides and he elected would see that industrial peace would be a reality in Michigan. He pointed to the 10 day settlement of the Ford strike while he was governor

in comparison to the 114 day General Motors strike this spring.

The candidate for the governorship was introduced by Chairman A. J. Nelson who also introduced the three county Democratic candidates: Reginald Sheehy for Sheriff, James Post for Treasurer and Robert Neale for Prosecutor and visiting Dem candidates from Roscommon and Oscoda counties. He also presented Postmaster James McDonnell of Grayling and Postmaster Philip Duckley of Frederic.

After spending the night in Grayling at Shoppenagons Inn, the Democratic candidate who was accompanied on his trip by Al Kaufman of the Detroit Times and Ed Roeder of the Detroit Free Press, left for a Friday morning breakfast meeting in West Branch.

WARNING TO HOUSEHOLDERS

Where could you find a place to live in if your home should burn down?

Fall and Winter, hot stoves and furnaces will soon begin their bitter battle.

An Atomic Bomb destroys all - so does a fire.

Why not be prepared with a Fyre-Fyter fire extinguisher for just that emergency?

We willingly make inspections as to your needs at no cost. Fire protection is the best fire insurance you can have.

THE build-up which Howard Hughes gave Jane Russell in "The Outlaw" certainly achieved its purpose; the picture has been breaking records wherever it's been shown, and Miss Russell's name and face were familiar to the public long before the picture was shown. But it's a question whether the reputation she's acquired won't handicap her in the

long run. She's beautiful, she's been working hard learning how to act, she's devoted to her husband and more interested in his career as a professional football player than in her own. But those lurid ads were, to put it mildly, exaggerated. She deserves success as an actress, not merely as an under-dressed siren.

Republic Productions, Inc., is going to make Wild Bill Elliott into William Elliott, top-budget star, or else! One-half million dollars has been allotted for the publicity campaign. He's finished two million-dollar pictures under his present contract, "In Old Sacramento" and "The Plainsman and the Lady." The new contract calls for three pictures a year, with \$15,000,000 earmarked for the productions.

Columbia's "Jolson's Story" will introduce a third-dimensional technical effect that's said by technicians to be the best thing done in motion pictures; to date the best effect's been achieved in animated cartoons, by artists, not cameramen.

Mrs. Bette-Sue Smith traveled from Uvalde, Texas, to Hollywood just to see her daughter, Dale Evans. But between picture-making at Republic and radio and personal appearance chores, Dale had no free time. Then—"They wrote me that 'My Pal Trigger' was showing at one of the theaters in Uvalde," said Mrs. Smith, "and I made up my mind I'd see more of Dale if I went home and saw the movie!"

Check Furnace; Save Your Home

Thousands of homes are burned every year because of defective or improperly installed heating plants and many tons of fuel are wasted by improper operation and incorrect adjustments. Now is the time, before the heating season gets in full swing, to make sure your furnace is ready for fire, says Fred Roth, farm safety specialist at Michigan State college.

Checking the furnace to make sure it is ready for another winter means looking at the grates to see if they are in good condition. If it is a hot-air furnace, check the firepot for leaks. This can be done by building a small fire of papers in the furnace, closing the damper in the smoke pipe leading to the chimney and then checking the registers upstairs for the odor of burning papers. If the paper smoke is noticeable, the firepot requires attention.

In addition to cleaning out the ashpit, the furnace flues, and the smokepipe, the chimney should be cleaned, as the accumulated soot is both a fire and explosion hazard.

The smoke pipe itself should be checked thoroughly to make sure that rusting during the summer has not eaten holes or caused thin spots in the pipe. Such defects can be detected by firm hand pressure on the outside of the pipe. Dangerously thin spots will collapse inward under even moderately firm pressure. Replace any smoke pipes in questionable condition, making sure that all joints are tight and that the pipe fits tightly into the chimney.

Check operation of the controls and make sure they are properly adjusted. Refer to the instructions which came with the equipment, or consult a furnace repairman or installer for information.

Any boxes, rubbish, or papers that may have been placed near the furnace during the summer months should be cleared away before starting the fire.

The same precautions also apply to coal stoves, oil stoves, and gas heaters used to heat individual rooms or portions of a house. These heaters should be located at a safe distance from woodwork, and should be connected to a chimney to remove the gases of burning.

Neither is there any basis for fear that essential services of state government would be curtailed. There is every reason to believe that present and future revenues from the sales tax, plus various other sources of income for state government will be sufficient for reasonable needs of other state institutions and other state agencies and services.

CHAPTER XV

Elizabeth turned to the desk and began writing an order for some tools needed for the Victory garden. She had finished this and several other notes when she heard Dick and Cherry come in. Going to her doorway, she watched them scamp up the stairs, enjoying the healthy windblown look of them. "Did you have a good time?" she asked.

"Oh yes," said Cherry. "The sea was just beautiful and we all had a hot dog and Dick ate two egg sandwiches besides."

"Best shortage," Dick explained. "They wouldn't give us but one hot dog apiece."

"I don't know why you don't kill yourself," Elizabeth exclaimed.

Dick said he felt fine, which he evidently did. They said good night, and Elizabeth went downstairs. Spratt and Kessler should be finishing up their conference by now if they expected to go to work in the morning. They did appear in a short time, Spratt saying he didn't know why Kessler insisted on taking a taxi when he'd be glad to drive him home. Shaking his head with good-natured insistence, Kessler said,

"I'm sure Mrs. Herlong will agree with me. I can't drive, but it's one of my principles not to let my friends drive for me if I can help it. It may be convenient tonight, but there will be times when it isn't. Am I right, Mrs. Herlong?"

How sensible he was, Elizabeth thought, to accept his handicaps so

cause everything they do know about is unsatisfactory.

"How cheering you are!" exclaimed Spratt.

Elizabeth was looking up at Kessler. She asked,

"Mr. Kessler, have you and I ever met before?"

He started. For a moment he looked down. She looked down with him, and saw his hand tighten on his cane. She was to learn that he did this often, making an unconscious gesture toward his physical means of support when his spirit felt un-

But he hesitated only for a moment. His self-discipline had been learned in a long hard school. He answered,

"Before tonight? If we had, Mrs. Herlong, I can't believe I could have forgotten it. No, I am sure we have not."

He had looked up and was regarding her steadily. Elizabeth did not know that letting his eyes meet hers just then was one of the hardest achievements he had ever accomplished in his life.

He did it so well that she nearly believed him. "Maybe I'm wrong, then," she said. "But tonight, as soon as you came in, it seemed to me that I had seen you somewhere and I couldn't think where it was."

"Maybe," suggested Spratt, sitting down and taking up the cigarette box from the table. "You two saw each other at one of those big cocktail parties where you see hundreds of people and don't get to know any of them."

"Very likely," Kessler agreed readily, turning toward Spratt as though welcoming his suggestion. "I've been forced against my will to attend several of those. Or possibly," he added, "you saw me at the studio. You come there now and

Sen. Vandenberg High in G.O.P. National Councils

The high prestige which Sen. Arthur H. Vandenberg, at right above, has merited by his outstanding leadership has accorded him a position of high ranking in the national councils of the Republican party. He was offered but declined nomination as Vice President of the United States in 1936 and was given 76 votes for the Presidency in the Republican Convention in 1940. He is the high ranking Republican member of five Senate committees and two joint committees of the Senate and House. He also is Chairman of the Republican Conference of the Senate. If Vandenberg and a Republican Senate are elected in November, as seems likely, Sen. Vandenberg will become President of the Senate and Acting Vice President of the United States in everything except succession to the Presidency. He also will become chairman of the Senate Foreign Relations Committee. Here he is seen in conference with Sen. Robert A. Taft, of Ohio, left, Chairman of the Republican steering committee in the Senate, and Sen. Wallace H. White, Jr., of Maine, Senate Republican floor leader.
